EXPERIENCE

Carl ZEISS Digital Innovation Partners User Experience Designer

Munich | 2018 - present (2.5 yrs)

Enabling and accelerating the digital transformation of ZEISS through combining skills and knowledge from design thinking, UX/UI and 3D design in order to research, design, prototype, test and deliver valuable experiences. Working both in research-focused strategic contexts as well as in agile development setups.

VanBerlo Product Design Intern

Eindhoven | 2016/2017 (6 months)

Joining the multidisciplinary dutch design agency in projects around digital, hardware and strategic design for international clients. Preparing and performing in-field research, co-leading client workshops and co-creation sessions.

N+P Industrial Design Product Design Intern

Munich | 2015 (6 months)

Contributing to the team with focus on industrial design, web design and service design in the areas of medical applications and home appliances.
